TAT [redacted]

6. (Unclassified - LLM) LIAISON Don Cogman, Administrative Assistant to Senator Dewey Bartlett (R., Okla.), called concerning a conference to be held in Oklahoma City on 13 February and wanted to know if an Agency official could participate in addressing an individual question and answer period with some 300 high school and college students about Government. Senator Bartlett and Senator Henry Bellmon (R., Okla.) will also participate as well as other representatives for the Federal Government.

7. (Unclassified - LLM) BRIEFING Paul Leventhal, Senate Government Operations Committee staff, called to request a briefing for himself, Connie Evans and David Hoffmeister, also of the Committee staff, on nuclear safeguards on Monday or Tuesday prior to a hearing the Committee will hold later this week. I said I would check and be back in touch.

8. (Unclassified - LLM) BRIEFING George Murphy, Executive Director, Joint Committee on Atomic Energy, called scheduling 19 February 1976 for the annual briefing of the Committee. It will last approximately two hours, beginning at 10:00 a.m. Murphy asked that the prepared statement be in the hands of the Committee 24 hours in advance. He mentioned that Secretary Kissinger would appear before the Committee on the subject of "enrichment" on 5 February.

We then discussed the interest of Paul Leventhal, Senate Government Operations Committee staff, concerning the basis of the Senate Government Operations Committee's jurisdiction in these matters.

9. (Unclassified - LLM) LIAISON Called Pat Holt, Chief of Staff, Senate Foreign Relations Committee, concerning the statement that Senator Jacob Javits (R., N.Y.) this morning attributed to Senator Clifford Case (R., N.J.) to the effect that the Agency was leaking the covert action briefings in order to discredit the Congress. Holt had no input and in response to my query suggested I speak to Mike Kraft, of Senator Case's staff.
